

MY EDUCATION STORY

Once upon a time, when I was in grade 1, I was bullied by other students. When I went to the teacher to complain about them, she kicked me out and gave me a -2 on the quiz we had that day. It was an English quiz, and it was the hardest one. When the lesson started, the students who bullied me told the teacher that I had been using bad words. The teacher doubled my penalty to -4. I was very sad because I didn't do anything wrong.

EPISODE 2

The next day at school, when I arrived in class, the teacher called me over and said she had a gift for me. I was excited, but instead, she slapped me hard across the face. I was very mad.

REVENGE

I wanted to get revenge, so I decided to fight the bullies. There were four of them. When I fought with the first one, the others joined in, so I ran to the car and went home.

REPORTING THE SCHOOL

After two months of the same treatment, it was time to report the whole school. I went with my father to the police. When the police arrived, the school was finally closed forever. It's still closed to this day.

WHAT DID I LEARN FROM THIS EXPERIENCE

1. **Standing up against injustice:** Despite facing bullying and unfair treatment, you tried to stand up for yourself by reporting the incidents. This shows courage and a sense of justice.
2. **Seeking help when needed:** When you faced challenges, such as bullying and unfair punishment, you attempted to seek help by going to the teacher and later involving your father and the police. Seeking help is an important step when dealing with difficult situations.
3. **The power of perseverance:** Despite facing obstacles and mistreatment, you persisted in trying to address the issue until the school was ultimately closed. This demonstrates resilience and determination.
4. **Understanding the consequences of actions:** Your decision to seek revenge by fighting back against the bullies led to further escalation of the situation and didn't ultimately resolve the underlying issue. This highlights the importance of considering the potential consequences of our actions before acting on emotions like anger or frustration.
5. **The importance of communication and trust:** Effective communication and trust between students and teachers are crucial for creating a safe and supportive learning environment. Unfortunately, in your story, there seemed to be a lack of trust and communication between you and your teacher, which exacerbated the situation.

MY EDUCATION STORY

6. The impact of bullying: Your experience underscores the harmful effects of bullying, both on individuals and on the school community as a whole. Bullying can have serious consequences and should always be taken seriously and addressed promptly.

Overall, your story highlights the importance of standing up against injustice, seeking help when needed, and persevering in the face of challenges. It also underscores the need for open communication, trust, and proactive measures to address issues like bullying in schools.
